

PLASTORIA - CORPORATE SOCIAL RESPONSIBILITY & ENVIRONMENTAL RESPONSABILITY

Brussels, 7th May 2013

To Whom It May Concern,

Please be advised that PLASTORIA is committed to conducting its business affairs in a socially responsible and ethical manner consistent with all applicable national and local legal requirements, customs, and published industry standards pertaining to employment and manufacturing.

We also believe that we at PLASTORIA as a corporation are playing a central role as all businesses in improving the economic and the social conditions of the world and we hereby take the following commitment to our business to try improving the world we live in ...

1. Our responsibilities as a business

The value of a business to society is the wealth and employment it creates and the marketable products and services it provides to consumers at a reasonable price commensurate with quality. To create such value, a business must maintain its own economic health and viability.

2. Our economic and social impact

PLASTORIA establishes relationship and partnership in foreign countries to develop, produce or sell. Those businesses should also contribute to the social advancement of those countries by creating productive employment and by helping to raise the purchasing power of their citizens.

We believe that partnership that we create should contribute to human rights, education, welfare, and vitalization of the countries in which they operate.

3. Our business behavior

While accepting the legitimacy of trade secrets PLASTORIA recognizes that sincerity, candor, truthfulness, the keeping of promises, and transparency contribute not only to our own credibility and stability but also to the smoothness and efficiency of our business.

4. The respect for rules

To avoid trade frictions and to promote freer trade, equal conditions for competition, and fair and equitable treatment for all participants, PLASTORIA respects international and domestic rules. In addition, PLASTORIA recognizes that some behavior, although legal, may still have adverse consequences and take the commitment to avoid getting involved in such behavior.

5. The respect of the environment

PLASTORIA does its uttermost to protect and, where possible, improve the environment, promote sustainable development, and prevent the wasteful use of natural resources.

6. The avoidance of illicit operations

PLASTORIA does not participate in or condone bribery, money laundering, or other corrupt practices: indeed, PLASTORIA seeks cooperation with others to eliminate them. PLASTORIA does not trade in arms or other materials used for terrorist activities, drug trafficking or other form of organized crime.

7. Treatment of our customers

At PLASTORIA we are willing to treat all customers with dignity, irrespective of whether they purchase our products and services directly from us or from any of our distributors or their clients.

8. Treatment of our employees

At PLASTORIA, we believe in the dignity of every employee and in taking employee interests seriously.

9. Treatment of our suppliers

Our relationship with suppliers and subcontractors must be based on mutual respect. We therefore have a responsibility to seek fairness and truthfulness in all our activities, including pricing, licensing, and rights to sell.

10. Treatment of our competitors

At PLASTORIA, we believe that fair economic competition is one of the basic requirements for increasing the wealth of nations and ultimately for making possible the just distribution of goods and services. We therefore have a responsibility to promote competitive behavior that is socially and environmentally beneficial and demonstrates mutual respect among competitors.

Conclusion: Corporate Social Responsibility can and should govern every aspect of our business life. We recognize that the rewards, both for PLASTORIA and the society at large, are important.

We at PLASTORIA commit to follow the above principle whenever we can.
